SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA–95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and incidents (see 29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining said information (see 29 U.S.C. 657).

The following provisions of the Commercial Diving Operations Standards (the "standards") contain paperwork requirements: §§ 1910.401(b); 1910.420(a) and (b); 1910.421(b) and (h); 1910.422(e); 1910.423(d) and (e); 1910.430(a), (b)(4), (c)(1)(i) through (c)(1)(iii), (c)(3)(i), (f)(3)(ii), and (g)(2); and 1910.440(a)(2) and (b). These provisions require that employers: Notify OSHA if they deviate from the operational requirements of the standards; develop and make available

to employees a safe practices manual; maintain a list of emergency telephone or call numbers at the diving location; display a code flag "A" if diving from a surface other than a vessel in navigable waters; and develop and maintain a depth-time profile for each dive. The standards also mandate that employers: Record and maintain diving logs that contain required information; investigate and provide a written evaluation of any incident involving decompression sickness; mark diving umbilicals as required; inspect, test, and calibrate specified diving equipment; record modifications, repairs, tests, calibrations, and maintenance performed on any diving equipment; make a record of diving-related injuries and illnesses that result in a diver remaining in a hospital for over 24 hours; and create, and disclose to specified parties on request, the written records required by the standard, and maintain these records for specified periods.

The standards paperwork requirements allow employers to deviate from established diving practices and tailor diving operations to unusually hazardous diving conditions, and to analyze diving records (including hospitalization and treatment records) for information they can use to improve diving operations. These requirements are also a direct and efficient means for employers to inform dive-team members about diving-related hazards, procedures to use in avoiding and controlling these hazards, and recognizing and treating diving-related illnesses and injuries. Additionally, employers can review equipment records to ensure that employees performed the required actions, and that the equipment is in safe working order.

Disclosing these records to employees and their designated representatives permits them to identify operational and equipment conditions that may contribute to diving accidents or diving-related medical conditions.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and

- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

According to the Bureau of Labor Statistics' Occupational Employment Statistics report on Occupational Employment and Wages, May 2017, the number of professional divers has decreased from 10,000 divers in 2008 to 3,280 in 2017. Therefore, OSHA is requesting an adjustment decrease of 137,847 burden hours from 205,015 to 67,168 hours. The agency will summarize any comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Commercial Diving Operations Standard (29 CFR part 1910, subpart T).

OMB Control Number: 1218-0069.

Affected Public: Businesses or other for-profits.

Number of Respondents: 1,093.

Frequency of Responses: On occasion.

Total Responses: 1,325,509.

Average Time per Response: Various.

Estimated Total Burden Hours: 67,168.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other materials must identify the agency name and the OSHA docket number (Docket No. OSHA-2011-0008) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service,

please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).
