

specific organizations, which are uniquely situated to respond to the needs of sexual assault victims within culturally specific populations.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that it will take the approximately 11 respondents (SASP-Culturally Specific Program grantees) approximately one hour to complete a semi-annual progress report. The semi-annual progress report is divided into sections that pertain to the different types of activities in which grantees may engage. A SASP-Culturally Specific Program grantee will only be required to complete the sections of the form that pertain to its own specific activities.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total annual hour burden to complete the data collection forms is 22 hours, that is 11 grantees completing a form twice a year with an estimated completion time for the form being one hour.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Safe Drinking Water Act

On March 18, 2019, the Department of Justice lodged a proposed consent decree with the United States District Court for the Eastern District of New York in the lawsuit entitled *United States of America v. City of New York and New York City Department of Environmental Protection*, Civil Action No. 1:19-cv-01519-RJD-CLP.

The United States filed this lawsuit to seek civil penalties and injunctive relief for violations of the Safe Drinking Water Act, 42 U.S.C. 300f, *et seq.* The alleged violations stem from the City's failure to place a cover over its Hillview Reservoir, a 90-acre treated-water reservoir in Yonkers. The reservoir holds water destined for consumers in New York City. The water arrives at the reservoir after being disinfected at the City's upstream Catskill-Delaware Water Ultraviolet Disinfection Facility, sometimes referred to as the Eastview facility, in central Westchester. The purpose of covering the reservoir is to protect the disinfected water from microbial recontamination during storage. The cover is required by the Long Term 2 Enhanced Surface Water Treatment Rule. 40 CFR 141.714.

The proposed consent decree will require the City to build the cover. At times during cover construction, the City will operate only one of the reservoir's two ("East" and "West") basins while the other basin is off-line during construction of that basin's cover (so-called "single basin operation"). The City represents that to ensure reliable water delivery during single basin operation, two precursor projects must be completed first. These two projects are the Kensico-Eastview Connection and the Hillview Reservoir Improvements. The Kensico-Eastview Connection will be a new underground aqueduct between the Eastview facility and the further upstream Kensico Reservoir. The Hillview Reservoir Improvements will include replacing sluice gates and building a new connection between the reservoir and downstream water distribution tunnels.

These two precursor projects will be built on parallel schedules. The proposed consent decree will require the City to complete the Hillview Reservoir Improvements by 2033 and the Kensico-Eastview Connection by 2035. After that, the City will be required to build the East Basin cover, with full operation to start by 2042. The City will then be required to build the West Basin cover, with full operation to start by 2049.

The proposed consent decree also requires the City to pay the United States a civil penalty of \$1 million for the City's past violations of federal requirements. In addition, the consent decree provides that the City will pay New York State a civil penalty of \$50,000 and perform a state Water Quality Benefit Project to settle the State's claim for penalties for violations of a state administrative order. The Water Quality Benefit Project will establish a redundant supervisory control and data acquisition control center. This "SCADA" control center will allow more reliable operation of the City water supply's SCADA system.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America v. City of New York and New York City Department of Environmental Protection*, D.J. Ref. No. 90-5-1-1-10223/1. DEPARTMENT OF LABOR

Secretary's Order 02-2019—Chief Data Officer and DOL Data Board

I. Purpose. To establish a Chief Data Officer (CDO); to formalize the Department of Labor (DOL) Data Board (Data Board); to create a data governance framework for the Department; and to create strategic value from data collected and housed throughout the Department.

II. Authorities and Directives Affected

A. Authorities.

1. This Secretary's Order (the Order) is issued pursuant to the authority granted under 29 U.S.C. 551 *et seq.*

2. A congressional statute obligates the Secretary to designate a Chief Data Officer. *See* Foundations for Evidence-Based Policymaking Act of 2018, Public Law 115-435, 132 Stat 5529.

B. Directives Affected. This Order does not affect the authorities and responsibilities assigned by any other Secretary's Order.

III. Background. Evidence-based policymaking has necessitated a modern data infrastructure and strengthened data capacity. Across the agencies within the Department of Labor, data—which are essential to setting policy and delivering efficiently and effectively on the Department's mission of serving America's workforce—are collected every day. However, these data may not be leveraged, housed, formatted, or made public in ways that best serve the needs of DOL or its stakeholders. There needs to be a more central focus on the quality, consistency, and availability of data to inform and influence how DOL carries out its mission.

IV. Data Board

A. Purpose of the Data Board

1. The Data Board is a forum for DOL to work across organizational lines to collaborate and coordinate effectively on data strategy, management, and policy issues, as well as DOL data governance, stewardship, architecture, and utilization.

B. Responsibilities

1. The Data Board is charged with providing recommendations to the Secretary, the Deputy Secretary, and Agency Heads on the creation,
