FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0751]

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0751.

Title: Contracts and Concessions, 47 CFR 43.51.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents/Responses: 20 respondents, 20 responses.

Estimated Time per Response: 6–8 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 154, 211, 219 and 220.

Total Annual Burden: 140 hours.

Annual Cost Burden: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for

confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission (“Commission”) is requesting that the Office of Management and Budget (OMB) approve a revision of the information collection, titled, “Contracts and Concessions—47 CFR 43.51” under OMB Control Number 3060–0751. On November 29, 2012, the Commission released the International Settlements Policy Reform Order (“ISP Reform Order”), FCC 12–145. In this Order, the Commission decided to eliminate the international settlements policy and certain associated rules, including removal of the Section 43.51(d) filing requirements and removal of Section 43.51(b)(3). As a result, this Supporting Statement reflects a program change of – 20 responses and – 160 in annual burden hours.

The Commission determined in the *ISP Reform Order* that the international settlements policy (ISP) and rules had become unnecessarily burdensome on U.S. carriers attempting to negotiate agreements with foreign carriers to exchange traffic at lower rates. The Commission determined that eliminating the ISP, with one exception related to Cuba, would enable more market-based arrangements between U.S. and foreign carriers on all U.S.-international routes, giving all U.S. consumers competitive pricing when they make international calls. When it eliminated the ISP, the Commission eliminated Section 43.51(b)(3), which required that the agreements described in Sections 43.51(a) and 43.51(b) be filed by U.S.-international carriers that were affiliated with foreign carriers that possessed market power on certain U.S.-international. The Commission also removed Section 43.51(d), which required annual reporting by U.S.-international carriers of certain

information concerning their agreements for interconnection of an international private line to the U.S. public switched network. The Commission declined in the *ISP Reform Order* to adopt proposed rules requiring U.S.-international carriers to file, or provide notice of, agreements with foreign carriers to exchange traffic at rates that exceeded the Commission's "benchmark" settlement rates. The Commission stated that it would require U.S. carriers to provide information about any above-benchmark settlement rates on an as-needed basis in connection with an investigation of competition problems or a review of high consumer rates on particular routes, according confidential treatment to the information.
