FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Kashka Kubzdela, 202–245–7377 or email NCES.Information.Collections@ed.gov.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Fast Response Survey System (FRSS) 110: Use of Educational Technology for Instruction in Public Schools—Preliminary Activities.

OMB Control Number: 1850–0733.

Type of Review: A new generic information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 1,400.

Total Estimated Number of Annual Burden Hours: 1,600.

Abstract: This request is to conduct preliminary activities for the Fast Response Survey System (FRSS) survey #110 on use of educational technology for instruction in public schools. The Office of Educational Technology (OET) requested that NCES conduct this FRSS survey. The expanding use of technology affects the lives of students both inside and outside the classroom. For this reason, the role of technology

in education is an increasingly important area of research. While access to technology can provide valuable learning opportunities to students, technology by itself does not guarantee successful outcomes. Schools and teachers play an important role in successfully integrating technology into teaching and learning. The purpose of this FRSS 110 survey is to collect nationally representative data from public schools about their use of educational technology for instruction. This request for FRSS 110 preliminary activities involves securing research approval from special contact school districts beginning in June 2019. The request to conduct the full-scale survey will be submitted in winter 2019. Preliminary activities will begin in June 2019, and the main survey data collection from schools will begin in January 2020 and is scheduled to end in June 2020.
