Information Collection Request

Title: Barge Fleeting Facility Records.
OMB Control Number: 1625–0023.

Summary: The regulations require the person in charge of certain barge fleeting facilities to keep records of twice daily inspections of barge mooring and movements of barges and hazardous cargo in and out of a facility.

Need: Title 33 CFR 165.803 requirements are intended to prevent barges from breaking away from a fleeting facility and drifting downstream out of control in the congested Lower Mississippi River waterway system.

Forms: None.

Respondents: Operators of barge fleeting facilities.

Frequency: Daily.

Hour Burden Estimate: The estimated burden has decreased from 11,076 hours to 7,542 hours a year, due to a decrease in the estimated annual number of responses.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: April 2, 2019.

SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of

information technology. Consistent with the requirements of Executive Order 13771, Reducing Regulation and Controlling Regulatory Costs, and Executive Order 13777, Enforcing the Regulatory Reform Agenda, the Coast Guard is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents. In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this request, [USCG–2019–0253], and must be received by June 7, 2019.

Submitting Comments

We encourage you to submit comments through the Federal eRulemaking Portal at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. Documents mentioned in this notice, and all public comments, are in our online docket at <https://www.regulations.gov> and can be viewed by following that website’s instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted.

We accept anonymous comments. All comments received will be posted without change to <https://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, you may review a Privacy Act notice regarding the Federal Docket Management System in the March 24, 2005, issue of the **Federal Register** (70 FR 15086).

Information Collection Request

Title: Requirements for Lightering of Oil and Hazardous Material Cargoes, and Advance Notice of Transfer.

OMB Control Number: 1625–0042.

Summary: The information for this report allows the U.S. Coast Guard to provide timely response to an emergency and minimize the environmental damage from an oil or hazardous material spill. The information also allows the Coast Guard to control the location and procedures for lightering activities. It also provides advance notice of transfers at certain facilities.

Need: Section 3715 of Title 46 U.S.C. authorizes the Coast Guard to establish lightering regulations. Title 33 CFR 156.200 to 156.330 and 156.400 to 156.430 prescribes the Coast Guard regulations for lightering, including pre-arrival notice, reporting of incidents and operating conditions. Section 1225 of 33 U.S.C. authorizes the Coast Guard to prescribe advance notice of transfer regulations. Title 33 CFR 156.118 prescribe the regulations.

Forms: CG-4020, 4 Hour Advance Notice of Transfer.

Why is Coast Guard Proposing a New Form: The Coast Guard proposes the use of a new form CG-4020—4 Hour Advance Notice of Transfer, because we believe that the form will improve communications and enhance information exchange accuracy. The optional form provides a facility representative with a simple means of complying with the existing advance notice of transfer requirements in 33 CFR 156.118.

Respondents: Owners, masters and agents of lightering vessels, and facility representatives.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has increased from 372 hours to 985 hours a year, due to an increase in the estimated annual number of responses.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: April 2, 2019.

James D. Roppel,

U.S. Coast Guard, Chief, Office of Information Management.
