## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60-Day–19–19ACC; Docket No. CDC–2019–0020]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of

government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled *Survey of Engineered Nanomaterial Occupational Safety and Health Practices*. The goal of this project is to assess the relevance and impact of NIOSH's contribution to guidelines and risk mitigation practices for safe handling of engineered nanomaterials in the workplace.

**DATES:** CDC must receive written comments on or before June 24, 2019.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC-2019-0020 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov*. Follow the instructions for submitting comments.

- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329.

**Instructions:** All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

**Please note:** Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: *omb@cdc.gov*.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.

### Proposed Project

Survey of Engineered Nanomaterial Occupational Safety and Health Practices—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

As mandated in the Occupational Safety and Health Act of 1970 (Pub. L. 91-596), the mission of the National Institute for Occupational Safety and Health (NIOSH) is to conduct research and investigations on work-related disease and injury and to disseminate information for preventing identified workplace hazards (Sections 20(a)(1) and (d), Attachment 1). This dual responsibility recognizes the need to translate research into workplace application if it is to impact worker safety and well-being. The goal of this project is to assess the relevance and impact of NIOSH's contribution to guidelines and risk mitigation practices for safe handling of engineered nanomaterials in the workplace. The intended use of this data is to inform NIOSH's research agenda to enhance its relevance and impact on worker safety and health in the context of engineered nanomaterials. NIOSH is in the process of procuring a contractor to perform the

work, and is on schedule to award a contract by summer 2019. NIOSH requests a two year OMB clearance.

The research under this project will survey companies who manufacture, distribute, fabricate, formulate, use or provide services related to engineered nanomaterials. The analysis will describe the survey sample, response rates, and types of company by industry and size. Further analysis will focus on identifying the types of engineered nanomaterials being used in industry and the types of occupational safety and health practices being implemented. The analysis will be used to develop a final report which evaluates the influence of NIOSH products, services, and outputs on industry occupational safety and health practices.

Under this project, the following activities and data collections will be conducted:

- (1) **Company Pre-calls.** Sampled companies will be contacted to identify the person who will complete the survey and to ascertain whether or not the company handles engineered nanomaterials.

- (2) **Survey.** A web-based questionnaire, with a mail option, will be administered to companies. The purpose of the survey is to learn directly from companies about their use of NIOSH materials and their occupational safety and health practices concerning engineered nanomaterials.

A sample of 600 companies will be compiled from lists of industry associations, research reports, marketing databases, and web-based searches. Of the 600 selected companies we anticipate that 500 will complete the survey. The company pre-call is expected to require 5 minutes to complete. The survey is expected to require 20 minutes to complete; including the time it may take respondents to look-up and retrieve needed information. The estimated annualized burden hours for the respondents' time to participate in this information collection is 109 hours. There are no costs to the responders other than their time.

### ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Receptionist .....	Pre-call .....	300	1	5/60	25
Occupational Health and Safety Specialist .....	Survey .....	100	1	20/60	34
Industrial Production Managers .....	Survey .....	75	1	20/60	25
Natural Science Managers .....	Survey .....	75	1	20/60	25
Total .....	.....	.....	.....	.....	109

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60-Day-19-1097; Docket No. CDC-2019-  
0033]

### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and  
Prevention (CDC), Department of Health  
and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease  
Control and Prevention (CDC), as part of  
its continuing effort to reduce public  
burden and maximize the utility of  
government information, invites the  
general public and other Federal  
agencies the opportunity to comment on  
a proposed and/or continuing  
information collection, as required by  
the Paperwork Reduction Act of 1995.  
This notice invites comment on a  
proposed information collection project  
titled Monitoring and Reporting System  
for the National Tobacco Control  
Program. This information collection is  
requested by CDC to monitor progress in  
the states and territories funded through  
two CDC cooperative agreements

**DATES:** CDC must receive written  
comments on or before June 24, 2019.

**ADDRESSES:** You may submit comments,  
identified by Docket No. CDC-2019-  
0033 by any of the following methods:

- *Federal eRulemaking Portal:*  
*Regulations.gov.* Follow the instructions  
for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information  
Collection Review Office, Centers for  
Disease Control and Prevention, 1600  
Clifton Road NE, MS-D74, Atlanta,  
Georgia 30329.

*Instructions:* All submissions received  
must include the agency name and  
Docket Number. CDC will post, without  
change, all relevant comments to  
*Regulations.gov.*

*Please note:* Submit all comments  
through the Federal eRulemaking portal  
(*regulations.gov*) or by U.S. mail to the  
address listed above.

**FOR FURTHER INFORMATION CONTACT:** To  
request more information on the  
proposed project or to obtain a copy of  
the information collection plan and

instruments, contact Jeffrey M. Zirger,  
Information Collection Review Office,  
Centers for Disease Control and  
Prevention, 1600 Clifton Road NE, MS-  
D74, Atlanta, Georgia 30329; phone:  
404-639-7570; Email: *omb@cdc.gov*.

**SUPPLEMENTARY INFORMATION:** Under the  
Paperwork Reduction Act of 1995 (PRA)  
(44 U.S.C. 3501-3520), Federal agencies  
must obtain approval from the Office of  
Management and Budget (OMB) for each  
collection of information they conduct  
or sponsor. In addition, the PRA also  
requires Federal agencies to provide a  
60-day notice in the **Federal Register**  
concerning each proposed collection of  
information, including each new  
proposed collection, each proposed  
extension of existing collection of  
information, and each reinstatement of  
previously approved information  
collection before submitting the  
collection to the OMB for approval. To  
comply with this requirement, we are  
publishing this notice of a proposed  
data collection as described below.

The OMB is particularly interested in  
comments that will help:

1. Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;
  2. Evaluate the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;
  3. Enhance the quality, utility, and  
clarity of the information to be  
collected; and
  4. Minimize the burden of the  
collection of information on those who  
are to respond, including through the  
use of appropriate automated,  
electronic, mechanical, or other  
technological collection techniques or  
other forms of information technology,  
e.g., permitting electronic submissions  
of responses.
5. Assess information collection costs.

### Proposed Project

Monitoring and Reporting System for  
the National Tobacco Control Program—  
Reinstatement with Change—National  
Center for Chronic Disease Prevention  
and Health Promotion (NCCDPHP),  
Centers for Disease Control and  
Prevention (CDC).

### Background and Brief Description

The Centers for Disease Control and  
Prevention (CDC) works with states,  
territories, tribal organizations, and the  
District of Columbia (collectively  
referred to as “state-based” programs) to  
develop, implement, manage, and

evaluate tobacco prevention and control  
programs. Support and guidance for  
these programs have been provided  
through cooperative agreement funding  
and technical assistance administered  
by CDC's National Center for Chronic  
Disease Prevention and Health  
Promotion (NCCDPHP). Partnerships  
and collaboration with other federal  
agencies, nongovernmental  
organizations, local communities,  
public and private sector organizations,  
and major voluntary associations have  
been critical to the success of these  
efforts. NCCDPHP cooperative  
agreements DP15-1509 (National State-  
Based Tobacco Control Programs) and  
DP14-1410PPHF14 (Public Health  
Approaches for Ensuring Quiltline  
Capacity) continue to support efforts  
since 1999 to build state health  
department infrastructure and capacity  
to implement comprehensive tobacco  
prevention and control programs.  
Through these cooperative agreements,  
health departments in all 50 states, the  
District of Columbia, Puerto Rico and  
Guam are funded to implement  
evidence-based environmental, policy,  
and systems strategies and activities  
designed to reduce tobacco use,  
secondhand smoke exposure, tobacco  
related disparities and associated  
disease, disability, and death.

CDC requests OMB approval to collect  
information from the 53 state-based  
programs funded under both DP15-1509  
and DP14-1410PPHF14. Awardees will  
report information about their work  
plan objectives, activities,  
infrastructure, and performance  
measures. Each awardee will submit an  
Annual Work Plan Progress Report  
using an Excel-based Work Plan Tool.  
The estimated burden per response on  
each of the abovementioned tools is six  
hours for each. Each awardee will also  
submit an Annual Performance Measure  
report using an Excel-based  
Performance Measures tool. The  
estimated burden per response for this  
tool is five hours. Additionally, each  
awardee will submit an Annual Progress  
Report (APR) using an Excel-based APR  
tool. The estimated burden per response  
for the APR tool is 18 hours for each.  
Awardees will also submit an Annual  
Component Model of Infrastructure  
(CMI) using an Excel-based CMI tool,  
with an estimated burden per response  
of three hours, and an Annual Budget  
Progress Report using an Excel-based  
Budget Tool, with an estimated burden  
per response of five hours. The same  
instruments will be used for all  
information collection and reporting  
throughout the OMB approval period.  
Awardees will upload their information
