

“Treating Diving-Related Medical Emergencies”).

4. JHT is prohibited from conducting SCUBA diving using air or nitrox breathing-gas mixture at depths deeper than 100 FSW but no deeper than 130 FSW, or outside the no-decompression limits, unless a 6 ATA decompression chamber is ready for use (diving operations performed for instructional purposes in accordance with § 1910.401(a)(2)(i) are exempt).

E. Worker Qualification and Training

JHT is required to:

1. Develop and implement an effective qualification and training program for its affected divers that, at a minimum, meets the requirements set forth in 29 CFR 1910.410 (qualifications of a dive team), and all of the requirements of the NDP;

2. Ensure that each affected diver (including, but not limited to, current and newly assigned to be involved in diving operations under the NDP) successfully completes all training required by the NDP to become a NOAA Diver;

3. Ensure that all divers complete all continuing training required by NDP to maintain status as an authorized NOAA Diver. At a minimum, the diver training program must include the following: (a) instruction in the conditions of the permanent variance; (b) annual refresher training in oxygen administration (academic and practical components); (c) instruction in maintaining current CPR/AED and First Aid certification; (d) maintaining proficiency in diving by making at least three (3) dives per quarter; (e) completing and passing an annual swim test; (f) completing and passing an annual skills test to demonstrate the diver's ability to safely operate underwater; (g) successfully completing one or more annual rescue drills to demonstrate the diver's ability to surface, extricate, treat and evacuate the victim of a diving accident; and (h) instruction in properly verifying that the diver's life support gear was serviced annually by a certified technician;

4. Document the training in order to provide a means of tracking the training received by divers and, consequently, to prompt JHT to update that training if necessary.

F. Recordkeeping

JHT is required to:

1. Maintain records of recordable injuries that occur as a result of diving operations conducted for NOAA under the NDP;

2. Ensure that the information gathered and recorded under this provision, in concert with the

information provided under condition G (using OSHA 301 Incident Report form to investigate and record dive-related recordable injuries as defined by 29 CFR 1904.4, 1904.7, 1904.8 through 1904.12), would enable the JHT and OSHA to determine the effectiveness of the permanent variance in preventing DCS and other dive-related injuries and illnesses.

G. Notifications

1. Notify the OTPCA and the Area Office closest to the dive location of any recordable injuries, illnesses, in-patient hospitalizations, amputations, loss of an eye, or fatality that occur as a result of diving operations within eight (8) hours of the incident;

2. Provide OTCPA and the Area Office closest to the dive location within twenty-four (24) hours of the incident with a copy of the incident investigation report using OSHA 301 form;

3. Include on the OSHA 301 form information on the diving conditions associated with the recordable injury or illness, the root-cause determination, and preventive and corrective actions identified and implemented;

4. Provide certification that it informed affected divers of the incident and the results of the incident investigation;

5. Notify OTPCA and the Area Office closest to the dive location within fifteen (15) working days should JHT need to revise its dive procedures to accommodate changes in its diving operations that affect its ability to comply with the conditions of the permanent variance;

6. Obtain OSHA's written approval prior to implementing the revision in its dive procedures to accommodate changes in its diving operations that affect its ability to comply with the conditions in the permanent variance;

7. By the fifteenth (15th) of January, at the beginning of each new calendar year, provide OTPCA, and the Area Offices and their corresponding Regional Office closest to the preceding year's dive locations, with a report summarizing the dives completed during the year just ended and evaluating the effectiveness of the permanent variance conditions in providing a safe and healthful work environment and in preventing dive-related incidents;

8. Notify OSHA if it ceases to do business, has a new main office address or location, or transfers the operations covered by the permanent variance to a successor company; and

9. Ensure that OSHA would approve the transfer of the permanent variance to a successor company.

OSHA will publish a copy of this notice in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

OSHA is providing notice that QAI Laboratories, Ltd. (QAI), is applying for expansion of recognition as a NRTL. QAI requests the addition of ten test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables

employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including QAI, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpcanrtl/index.html>.

QAI currently has two facility (sites) recognized by OSHA for product testing and certification, with headquarters located at: QAI Laboratories, Ltd., 3980 North Fraser Way, Burnaby, BC, Canada, V5J 5K5. A complete list of QAI's scope of recognition is available at <https://www.osha.gov/dts/otpcanrtl/qai.html>.

II. General Background on the Application

QAI submitted an application, dated August 4, 2017 (OSHA–2013–0017–0009), to expand recognition to include ten additional test standards. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1 lists the appropriate test standard found in QAI's application to expand for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST APPROPRIATE TEST STANDARDS FOR INCLUSION IN QAI'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 50	Enclosures for Electrical Equipment, Non-Environmental Considerations.
UL 50E	Enclosures for Electrical Equipment, Environmental Considerations.
UL 467	Grounding and Bonding Equipment.
UL 962A	Standard for Furniture Power Distribution Units.
UL 1012	Standard for Power Units Other Than Class 2.
UL 1310	Standard for Class 2 Power Units.
UL 1573	Standard for Stage and Studio Luminaires and Connector Strips.
UL 1951	Standard for Electric Plumbing Accessories.
UL 60950–21	Information Technology Equipment—Safety—Part 21: Remote Power Feeding.
UL 60950–23	Information Technology Equipment—Safety—Part 23: Large Data Storage Equipment.

III. Preliminary Findings on the Application

QAI submitted an acceptable application for expansion of the scope

of recognition. OSHA's review of the application file, and pertinent documentation, indicates QAI can meet the requirements prescribed by 29 CFR

1910.7 for expanding recognition to include the addition of these ten test standards for NRTL testing and certification listed above. This

preliminary finding does not constitute an interim or temporary approval of QAI's application.

OSHA welcomes public comment as to whether QAI meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N-3655, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2013-0017.

OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, the agency will make a recommendation to the Assistant Secretary for Occupational Safety and Health whether to grant QAI's application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of the final decision in the **Federal Register**.

IV. Authority and Signature

Loren Sweatt, Acting Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on May 7, 2019.

Loren Sweatt,

Acting Assistant Secretary of Labor for Occupational Safety and Health.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

OSHA is providing notice that Bay Area Compliance Laboratories Corp. (BACL), is applying for expansion of recognition as a NRTL. BACL requests the addition of two test standards to its NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the
