

Live/Hardbottom Habitat of the South Atlantic Region. The applicant requests authorization to collect a variety of species in the snapper-grouper complex, dolphin, and live rock. Specific species and quantities of each species, listed by common name, to be collected each year of a 5-year period include a maximum of 16 red hind, 16 rock hind, 16 graysby, 24 red porgy, 24 black sea bass, 16 coney, 16 scamp, 3 snowy grouper, 16 red grouper, 16 gag grouper, 9 yellowedge grouper, 9 yellowfin grouper, 16 yellowmouth grouper, 36 vermilion snapper, 20 red snapper, 36 yellowtail snapper, 24 amberjack (lesser and greater amberjack combined), 24 almaco jack, 100 bar jack, 24 dolphin, and 50 lb (22.7 kg) of live rock.

Specimens would be collected in Federal waters from 3 miles (4.8 km) offshore out to 100 fathoms (182 m), from 33°10' N lat. to 36°30' N lat. along the coast of North Carolina. The EFP would authorize sampling operations to be conducted on vessels to be named by the North Carolina Aquariums and designated in the EFP. The project proposes to use hook-and-line gear, no more than 5 black sea bass pots and 10 minnow traps to collect fish, and SCUBA to collect live rock by hand. Most collections would be conducted year-round for a period of 5 years, commencing on the date of issuance of the EFP. Black sea bass pots and minnow traps would be deployed from the months of May through October each year of the EFP. The soak time for both pots and traps would vary from 4 to 8 hours up to 2 days. The majority of the pots and traps would be set in the morning and retrieved at the end of the same day; however, if the weather is suitable, the pots and traps may be left overnight for no more than one night at a time. Pots and traps would be retrieved by hand to reduce barotrauma, and would be deployed in hard bottom and ledge habitats offshore.

The intent of the request is to incorporate North Carolina native species into the educational exhibits at four state aquariums located on Roanoke Island, Pine Knoll Shores, Fort Fisher, and Jennette's Pier, North Carolina. The aquariums use these displays of native North Carolina habitats and species to teach the public about conservation of these resources.

NMFS finds this application warrants further consideration. Based on a preliminary review, NMFS intends to issue an EFP. Possible conditions the agency may impose on this permit, if it is indeed granted, include but are not limited to, a prohibition of conducting research within marine protected areas, marine sanctuaries, special management

zones, or artificial reefs without additional authorization. Additionally, NMFS will require any sea turtles taken incidentally during the course of fishing or scientific research activities to be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water. To acquire live rock for the aquariums, the applicant has the option to either purchase aquacultured live rock from a commercial source, or if the EFP is issued, the applicant may collect up to 50 lb (22.7 kg) of live rock from the Federal waters off North Carolina, but immediately replace it with an equal weight of substrate suitable to support the culture of live rock. A final decision on issuance of the EFP will depend on NMFS' review of public comments received on the application, consultations with the affected state, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, and a determination that it is consistent with all applicable laws.

Authority: 16 U.S.C. 1801 *et seq.*

SUPPLEMENTARY INFORMATION:

Deletions

On 4/19/2019, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List.

After consideration of the relevant matter presented, the Committee has determined that the products and services listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.
2. The action may result in authorizing small entities to furnish the products and services to the Government.
3. There are no known regulatory alternatives which would accomplish

the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the products and services deleted from the Procurement List.

End of Certification

Accordingly, the following products and services are deleted from the Procurement List:
