Trifluralin Case 0179	EPA-HQ-OPP-2012-0417	Patricia Biggio, biggio.patricia@epa.gov , 703-347-0547.

The registration review docket for a pesticide includes earlier documents related to the registration review case. For example, the review opened with a Preliminary Work Plan, for public comment. A Final Work Plan was placed in the docket following public comment on the Preliminary Work Plan.

The documents in the dockets describe EPA's rationales for conducting additional risk assessments for the registration review of the pesticides included in the table in Unit IV, as well as the Agency's subsequent risk findings and consideration of possible risk mitigation measures. These proposed interim registration review decisions are supported by the rationales included in those documents. Following public comment, the Agency will issue interim or final registration review decisions for the pesticides listed in the table in Unit IV.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed interim registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed interim decision. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Table in Unit IV. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and may provide a "Response to Comments Memorandum" in the docket. The interim registration review decision will explain the effect that any comments had on the interim decision and provide the Agency's response to significant comments.

Background on the registration review program is provided at: <http://www.epa.gov/pesticide-reevaluation>.

Total Annual Burden: 275,090 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No Impact(s).

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the Commission. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules. We note that the universal service administrator must preserve the confidentiality of all data obtained from respondents and contributors to the universal service support program mechanism; must not use the data except for purposes of administering the universal service support program; and must not disclose data in company-specific form unless directed to do so by the Commission.

Needs and Uses: The Commission seeks Office of Management and Budget (OMB) approval of a revision (change in reporting and recordkeeping requirements) to this information collection. This collection is utilized for the rural health care support mechanism (RHC Program) of the Commission's universal service fund (USF). Section 254(h)(A)(1) of the Telecommunications Act of 1996 (1996 Act), 47 U.S.C. 254(h)(A)(1), mandates that telecommunications carriers provide telecommunications services for health care purposes to eligible rural public or non-profit health care providers at rates that are "reasonably comparable" to rates in urban areas. In addition, section 254(h)(2)(A) of the 1996 Act, 47 U.S.C. 254(h)(2)(A), directs the Commission to establish competitively neutral rules to enhance, to the extent technically feasible and economically reasonable,

access to "advanced telecommunications and information services" for public and non-profit health care providers.

Based on this legislative mandate, the Commission established the two components of the RHC Program—the Telecommunications (Telecom) Program and the Healthcare Connect Fund Program. Additionally, in 2006, the Commission established the Pilot Program which provided funding for a limited time (through funding year 2012). At the time of the Commission's last revision of this information collection, while no new funding was available under Pilot Program, some projects were still spending funds previously committed as part of the Pilot Program. Since that time, all invoicing under the Pilot Program has been completed and there are no remaining funds to be disbursed under the Pilot Program. This revised collection is therefore necessary to eliminate the requirements associated with this program. Additionally, this collection of information is necessary so that the Commission and the Universal Service Administrative Company (USAC), the administrator of the USF program, will have sufficient information to determine if entities are eligible for funding pursuant to the RHC Program, to determine if entities are complying with the Commission's rules, and to prevent waste, fraud, and abuse.

This information is also necessary in order to allow the Commission to evaluate the extent to which the RHC Program is meeting the statutory objectives specified in section 254(h) of the 1996 Act, and the Commission's performance goals for the Healthcare Connect Fund Program. Accordingly, this information collection is being revised to: (1) Eliminate the requirements for the Pilot Program and (2) extend the existing information collection requirements for the Healthcare Connect Fund and Telecom Programs.

This submission is organized by program indicating which information collection requirements are being eliminated or extended for each RHC program. The Healthcare Connect Fund includes FCC Forms 460, 461, 462, and 463, and the Telecom Program includes FCC Forms 465, 466, 467.

OMB Control Number: 3060–1096.

Title: Prepaid Calling Card Service Provider Certification, WC Docket No. 05–68.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 121 respondents; 1,452 responses.

Estimated Time per Response: 2.5 hours–20 hours.

Frequency of Response: Quarterly reporting requirement, third party disclosure requirement and recordkeeping requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154(i), 201, 202 and 254 of the Communications Act of 1934, as amended.

Total Annual Burden: 12,100 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Commission does not anticipate providing confidentiality of the information submitted by prepaid calling card providers. Particularly, the prepaid calling card providers must send reports to their transport providers. Additionally, the quarterly certifications sent to the Commission will be made public through the Commission's Electronic Comment Filing System (ECFS) process. These certifications will be filed in the Commission's docket associated with this proceeding. If the respondents submit information they believe to be confidential, they may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Prepaid calling card service providers must report quarterly the percentage of interstate, intrastate and international access charges to carriers from which they purchase transport services. Prepaid calling card providers must also file certifications with the Commission quarterly that include the above information and a statement that they are contributing to the federal Universal Service Fund based on all interstate and international revenue, except for revenue from the sale of prepaid calling cards by, to, or pursuant to contract with the Department of Defense (DoD) or a DoD entity.
