BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7011-N-20]

30-Day Notice of Proposed Information Collection: Revitalization Area Designation and Management

AGENCY: Office of the Chief Information Officer, HUD.

ACTION: Notice.

SUMMARY: HUD has submitted the proposed information collection requirement described below to the Office of Management and Budget (OMB) for review, in accordance with the Paperwork Reduction Act. The purpose of this notice is to allow for an additional 30 days of public comment.

DATES: Comments Due Date: June 24, 2019.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: HUD Desk Officer, Office of Management and Budget, New Executive Office Building, Washington,

DC 20503; fax: 202-395-5806. Email: OIRA_Submission@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT:

Colette Pollard, Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410; email Colette Pollard at Colette.Pollard@hud.gov or telephone 202-402-3400.

Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on October 22, 2018 at 83 FR 53288.

A. Overview of Information Collection

Title of Information Collection: Revitalization Area Designation and Management.

OMB Approval Number: 2502-0566.

Type of Request: Extension of a currently approved collection.

Form Number: None.

Description of the need for the information and proposed use: The Department accepts requests from state, local, or tribal governments or HUD-approved nonprofit organizations to designate a geographic area as a Revitalization Area by sending a written Requesting Letter to HUD. Revitalization Areas are intended to promote community revitalization through expanded homeownership opportunities of revitalization areas.

Respondents (i.e., affected public): State, local, or tribal governments or HUD-approved nonprofit organizations.

Respondents: Business (mortgage lenders).

Estimated Number of Respondents: 42.

Estimated Number of Responses: 42.

Frequency of Response: 1.

Average Hours per Response: 2.

Total Estimated Burdens: 84.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: May 13, 2019.

Colette Pollard,

Department Reports Management Officer, Office of the Chief Information Officer.

Draft Environmental Impact Statement for the Proposed Campo Wind Energy Project, San Diego, California

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, this notice advises the public that the Bureau of Indian Affairs (BIA) as lead agency has prepared a Draft Environmental Impact Statement (DEIS) in connection with the approval of a lease between the Campo Band of Diegueno Mission Indians (Tribe) and Terra-Gen Development Company, LLC (Terra-Gen), to construct and operate a wind energy generation project on the Campo Indian Reservation (Reservation). This Notice of Availability (NOA) also announces that the DEIS is now available for public review and that a public hearing will be held to receive comments on the DEIS.

DATES: Written comments on the DEIS must arrive by July 8, 2019. The date of a public hearing on the DEIS will be announced at least 15 days in advance through a notice to be published in local newspapers (*San Diego Union-Tribune* and *San Diego Business Journal*) and online at: www.CampoWind.com.

ADDRESSES: Commenters may mail or hand-deliver written comments to the Bureau of Indian Affairs, Pacific Regional Office, 2800 Cottage Way, Sacramento, California 95825. See the **SUPPLEMENTARY INFORMATION** section of this notice for further directions on submitting comments. The location of a public hearing on the DEIS will be announced at least 15 days in advance through a notice to be published in local newspapers (*San Diego Union-Tribune* and *San Diego Business Journal*) and online at: www.CampoWind.com. The DEIS is available for review at:

- County of San Diego Public Library—Campo, 31356 Highway 94, Campo, CA 91906
- County of San Diego Public Library—Pine Valley, 28804 Old Highway 80, Pine Valley, CA 91962
- BIA Pacific Regional Office, 2800 Cottage Way, Sacramento, California 95825

FOR FURTHER INFORMATION CONTACT: Dan (Harold) Hall, Regional Archeologist BIA Pacific Region Branch, by telephone at (916) 978–6041 or by email at harold.hall@bia.gov.

SUPPLEMENTARY INFORMATION:

- I. Background on the Process
- II. Background on the Project
- III. Alternatives
- IV. Environmental Impact Analysis
- V. Public Comment Procedures
- VI. Authority

I. Background on the Process

Public review of the DEIS is part of the administrative process for the evaluation of the authorization of the Tribe's lease of trust land in eastern San Diego County, California. Terra-Gen proposes to construct and operate a wind energy generation facility in the lease area. A Notice of Intent to prepare an EIS was published in the **Federal Register** on November 11, 2018, (83 FR 58784) and posted on the www.CampoWind.com website. A public notice announcing the proposed action and the scoping meeting was published in the *San Diego Business Journal* on November 26, 2018, and the *San Diego Union-Tribune* on November 21, 2018. The BIA held a public scoping meeting for the proposed project on December 6, 2018, at the Campo Indian Reservation Tribal Hall, 36190 Church Road, Campo, California.

II. Background on the Project

The proposed action consists of BIA approval of a lease between the Tribe and Terra-Gen, to construct and operate a renewable energy generation project for 25 years on the Reservation, with the possibility of a 13-year extension for a

total of 38 years. The lease would allow Terra-Gen to develop and operate a wind energy generation facility in the lease area. The project consists of the following components: (A) Up to 60 wind turbines of approximately 4.2 megawatts (MW) capacity and approximately 586 feet in total height; (B) access roads, including approximately 15 miles of new roads and approximately 15 miles of improved existing roads; (C) electrical collection and communication system; (D) project collector substation; (E) operations and maintenance facility; (F) meteorological towers; (G) water collection and septic system; (H) temporary concrete batch plant; (I) temporary staging areas; (J) on-reservation portion of the generation tie line (gen-tie line); and (K) boulder brush facilities (components on private lands including a portion of the gen-tie line, a high-voltage substation, a switchyard, and access roads).

III. Alternatives

The following alternatives are considered in the DEIS:

(1) Alternative 1, 252 MW—would include 60 turbines producing approximately 4.2 MW each, for a total production of approximately 252 MW. Up to 76 possible turbine sites have been evaluated, of which only 60 could be constructed under the lease. Total turbine height of approximately 586 feet.

(2) Alternative 2, 202 MW—would include a reduction in the Project's footprint, number of turbines, and generating capacity of approximately 20%, with 48 turbines that would produce approximately 4.2 MW each, for a total production of approximately 202 MW.

(3) Alternative 3, No Action Alternative—would entail the BIA not approving the proposed lease agreement between the Tribe and Terra-Gen for the construction of a wind energy project on the Reservation.

A wide range of additional alternatives were considered by the BIA but not carried forward for detailed analysis in the DEIS. The following alternatives were not analyzed in the DEIS because they either did not meet the purpose and need of the project or were not considered technically feasible or economically feasible or cost-effective: Mixed renewable generation (wind and solar), minimal build-out, off-reservation location, reduced capacity turbines, distributed generation.

IV. Environmental Impact Analysis

The DEIS analyzes the potential environmental impacts to 13 different resource categories, including:

- Land Resources
- Water Resources
- Air Quality
- Biological Resources
- GHG Emissions and Climate Change
- Cultural Resources
- Socioeconomic Conditions
- Resource Use Patterns
- Traffic and Transportation
- Noise
- Visual Resources
- Public Health and Safety
- Cumulative Scenario and Impacts.

V. Public Comment Procedures

BIA solicits public comments on the Draft EIS, in accordance with the Council on Environmental Quality's regulations for implementing NEPA and the DOI's NEPA regulations. Comments should include the commenting party's name, return address, and the caption: "DEIS Comments, Campo Wind Energy Project," on the first page of written comments. The comment period lasts 45 days. See the **DATES** section of this notice for the deadline and **ADDRESSES** section of this notice for where to send your comments.

Public comment availability: Comments, including names and addresses of respondents, will be available for public review at the BIA address shown in the **ADDRESSES** section, during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Commenting parties should be aware, before including their address, phone number, email address, or other personal identifying information in a comment, that comments may be made publicly available at any time. While a commenting party may request in its comment that identifying information be withheld from public review, the BIA cannot guarantee that this will occur.

Public meeting: You may provide comments in person at the public meeting. The date and location of the public hearing will be announced at least 15 days in advance through a notice to be published in local newspapers (*San Diego Union-Tribune* and *San Diego Business Journal*) and online at: www.CampoWind.com.

VI. Authority

This notice is published pursuant to Sec. 1503.1 of the Council of Environmental Quality Regulations (40 CFR parts 1500 through 1508) and Sec. 46.305 of the Department of the Interior Regulations (43 CFR part 46),

implementing the procedural requirements of the NEPA of 1969, as amended (42 U.S.C. 4371, *et seq.*), and is in the exercise of authority delegated to the Assistant Secretary-Indian Affairs by 209 DM 8.

Dated: May 17, 2019.

Tara Sweeney,

Assistant Secretary-Indian Affairs.

National Environmental Policy Act Implementing Procedures for the Bureau of Reclamation (516 DM 14)

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of final National Environmental Policy Act Implementing Procedures.

SUMMARY: This notice announces the addition of a new categorical exclusion under the National Environmental Policy Act of 1969 for the Bureau of Reclamation in the Department of the Interior's Departmental Manual (DM) at 516 DM 14. The new categorical exclusion is for the transfer of title of certain projects and facilities from the Bureau of Reclamation to a qualifying non-Federal project entity. The new categorical exclusion allows for more efficient review of appropriate title transfer actions.

DATES: The categorical exclusion is effective May 24, 2019.

ADDRESSES: The new categorical exclusion can be found at the web address <https://www.doi.gov/elips/browse>, at Series 31, Part 516, chapter 14.

FOR FURTHER INFORMATION CONTACT: Ms. Catherine Cunningham, Environmental Compliance Division, Bureau of Reclamation, (303) 445-2875; or via email at ccunningham@usbr.gov.

SUPPLEMENTARY INFORMATION:

Background

The Bureau of Reclamation (Reclamation) was established in 1902. Its original mission was one of civil works construction to develop the water resources of the arid Western United States to promote the settlement and economic development of that region. Results are well known in the hundreds of projects that were developed to store and deliver water. That substantial infrastructure contributed to making

Reclamation the largest wholesale supplier of water and the second largest producer of hydropower in the United States.

Title Transfer

Title transfer is a voluntary conveyance of ownership (title) for water projects, portions of projects, or project facilities such as dams, canals, laterals, and other water-related infrastructure and facilities to beneficiaries of those facilities. Title transfer divests Reclamation of responsibility for the operation, maintenance, management, regulation of, and liability for the project, lands, and facilities to be transferred. It provides the non-Federal entity with greater autonomy and flexibility to manage the facilities to meet its needs, in compliance with Federal, state, and local laws and in conformance with contractual obligations. Title-transferred assets would no longer be Federal assets.

Under the Reclamation Extension Act of 1914, the responsibility for operations, maintenance, and replacement of facilities may be, and often is, contractually transferred to the water users. Title or ownership of facilities and projects, however, must remain with the United States until Congress specifically authorizes their transfer. Since 1995, Reclamation has been working closely with qualifying entities of specific projects and has conveyed over 30 projects and/or project-related facilities, including dams, reservoirs, canals, laterals, buildings, project lands, and easements. Congressional authorizations for title transfer historically have occurred on a project-by-project basis. While Congress may authorize future title transfers by this same approach, recent legislation was passed to facilitate transfer of title for Reclamation project facilities. On March 12, 2019, the President signed into law the John D. Dingell, Jr. Conservation, Management, and Recreation Act, Public Law 116-9. Title VIII, Subtitle A of Public Law 116-9, *Reclamation Title Transfer* (Title VIII), authorizes Reclamation to transfer title of certain project facilities without additional Congressional action if they meet eligibility criteria, under procedures established by Reclamation.

Transfer of title is a Federal action under the National Environmental Policy Act (NEPA). NEPA requires that when a major Federal action would have significant impacts on the quality of the human environment, a statement be prepared to describe the impacts and effects on the human environment associated with the Federal action.

When a Federal agency determines that a certain category of actions will not normally have an individually or cumulatively significant effect on the human environment and for which neither an environmental assessment (EA) nor an environmental impact statement (EIS) is required, that category of actions may be excluded from further NEPA review (40 CFR 1508.4). When appropriately established and applied, categorical exclusions (CEs) serve a beneficial purpose. They allow Federal agencies to expedite the environmental review process for proposals that typically do not require more resource-intensive EAs or EISs (Council on Environmental Quality (CEQ) 2010).

Comments on the Proposal

Reclamation solicited comments from the public on establishing a new CE through a 30-day public comment period, announced in the **Federal Register** on October 17, 2018 (83 FR 52503). All comments received, to date, have been considered.

Reclamation received 16 letters from state governments, water and irrigation districts, water user organizations, a national environmental professionals association and a consortium of conservation interests. Individual comments included several that restated the objectives, limitations, and rationale for the CE, several that expressed general or detailed support or opposition for the CE, and several that expressed general or detailed support or opposition to transferring title.

Reclamation appreciates the interest and participation of all respondents. Reclamation has noted the comments, which provided general support and general opposition. For comments providing additional detail, questions, and suggestions, Reclamation, where appropriate, grouped the common comments and responds to the comments as follows:

Comment 1—Adequacy of analysis of title transfers: Commenters were concerned that a CE would preclude NEPA analysis or would not provide enough or sufficiently rigorous analysis for title transfer actions, including indirect effects, reasonable alternatives to be evaluated, and/or cumulative effects.

Response 1—CEs are not exemptions or waivers from NEPA. Rather, they are a type of NEPA review intended to accomplish the purposes of NEPA, efficiently and effectively. A CE is a tool to complete the NEPA environmental review process for proposals that normally would *not* require more resource-intensive EAs or EISs. Reclamation intends to meet
