

Schedules WAUW-AS4 and WAUW-AS7 to accommodate possible participation in a Western Interconnection energy imbalance service market by UGP as the BA. UGP proposes to include additional information regarding implementation and annual updates for Energy Imbalance and Generator Imbalance in its revised Protocols. Given that the SPP Integrated Marketplace does not extend into the Western Interconnection, UGP will continue to provide Energy Imbalance and Generator Imbalance in the WAUW as the BA from its own resources or from resources available to it, including possible participation in a Western Interconnection energy imbalance service market. The Formula Rate Templates and related information for Energy Imbalance and Generator Imbalance will be posted on the UGP OASIS, the UGP rates website, and the SPP Member Related Postings website at the locations listed above.

Legal Authority

Existing DOE procedures for public participation in power and transmission rate adjustments (10 CFR part 903) were published on September 18, 1985 and February 21, 2019.³ The proposed action is a major rate adjustment, as defined by 10 CFR part 903.2(e). In accordance with 10 CFR 903.15(a) and 10 CFR 903.16(a), WAPA will hold public information and public comment forums for this rate adjustment. WAPA will review and consider all timely public comments at the conclusion of the consultation and comment period and make amendments or adjustments to the proposal as appropriate. Proposed rates will be forwarded to the Assistant Secretary for Electricity for approval on an interim basis.

WAPA is establishing the formula rates for P-SMBP-ED in accordance with Section 302 of the Department of Energy (DOE) Organization Act (42 U.S.C. 7152). This Act transferred to, and vested in, the Secretary of Energy the power marketing functions of the Secretary of the Interior and the Bureau of Reclamation (Reclamation) under the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)); section 5 of the Flood Control Act of 1944 (16 U.S.C. 825s); and other acts that specifically apply to the project involved.

By Delegation Order No. 00-037.00B, effective November 19, 2016, the

Secretary of Energy delegated: (1) The authority to develop power and transmission rates to WAPA's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, or to remand or disapprove such rates, to FERC. By Delegation Order No. 00-002.00Q, effective November 1, 2018, the Secretary of Energy also delegated to the Under Secretary of Energy the authority to confirm, approve, and place into effect on an interim basis power and transmission rates for WAPA. By Redelegation Order No. 00-002.10D, effective June 4, 2019, the Under Secretary of Energy further delegated to the Assistant Secretary for Electricity the authority to confirm, approve, and place into effect on an interim basis power and transmission rates for WAPA.

At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA tips and complaints web form is intended to provide an easy and convenient means by which members of the public can supply information to EPA regarding suspected violations of environmental law. The decision to provide a tip or complaint is entirely voluntary and use of the webform when supplying a tip or complaint is also entirely voluntary. Tippers need not supply contact information or other personal identifiers. Those who do supply such information, however, should know that this information may be shared by EPA with appropriate administrative, law enforcement, and judicial entities engaged in investigating or adjudicating the tip or complaint.

Form Numbers: None.

Respondents/affected entities:

Respondents are expected to be members of the general public as well as employees of any company subject to federal environmental regulation. There is no specific industry or group of industries about which EPA expects tips or complaints.

Respondent's obligation to respond: voluntary.

Estimated number of respondents: 1,431 per month (total).

Frequency of response: generally, a one-time response.

Total estimated burden: 8,586 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$343,165 (per year), includes no annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase of 3,443 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects the fact that tips and complaints are being filed at a higher rate as the website becomes more widely known, a strong indication of the success of this program. There has been no change in the information being reported or the estimated burden per respondent.

Dated: August 13, 2019.

Henry Barnett,

Director, Office of Criminal Enforcement, Forensics and Training.

Two sections of the Clean Air Act (CAA or the Act) govern the establishment and revision of the NAAQS. Section 108 directs the Administrator to identify and list certain air pollutants and then issue "air quality criteria" for those pollutants. The air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of such pollutant in the ambient air. . ."
