SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Survey of Occupational Injuries and Illnesses. The Survey of Occupational Injuries and Illnesses is the primary indicator of the Nation's progress in providing every working man and woman safe and healthful working conditions. The survey measures the overall rate of work injuries and illnesses by industry. Survey data are also used to evaluate the effectiveness of Federal and State programs and to prioritize scarce resources. Respondents include employers who maintain OSHA records in accordance with the Occupational Safety and Health Act and employers who are normally exempt from OSHA recordkeeping. Each year a sample of exempt employers is required to keep records and participate in the Survey. This information collection is a revision because several of the associated documents have been updated. Section 24 (a) of the Occupational Safety and Health Act of 1970 authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB, under the PRA, approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220–0045. The current approval is scheduled to expire on December 31, 2019; however, the DOL notes that existing information collection requirements submitted to the OMB will receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 14, 2019 (84 FR 27806).
