NMFS will also receive input on issues to be considered at an upcoming intersessional meeting of ICCAT's Panel 2, which will focus on initial operational management objectives for the bluefin tuna MSE. The conference call is open to the public.

DATES: An operator-assisted conference call that is open to the public will be held on February 28, 2019, from 1 p.m. to 2:30 p.m. EST. (phone number 800-857-9879; verbal password "ICCAT"). Participants are strongly encouraged to dial in 15 minutes prior to the meeting.

ICCAT's Panel 2 is responsible for keeping under review the conservation and management of northern temperature tunas, including albacore and Atlantic bluefin. At its March 4-7 intersessional meeting, ICCAT's Panel 2 will seek to advance ongoing development of a management strategy evaluation (MSE) for Atlantic bluefin tuna. An MSE is a simulation that allows stakeholders (e.g., industry, managers, scientists, and non-governmental organizations) to assess how well different management strategies, such as harvest control rules, could meet the objectives of the fishery. Specifically, in accordance with the outcomes from the 21st Special Meeting of ICCAT, the intersessional meeting will focus on developing initial operational management objectives for the MSE.

For the conference call, NMFS will provide stakeholders with updates on

the progress related to ICCAT's bluefin tuna MSE work, including recent meetings of ICCAT's Standing Committee on Research and Statistics (SCRS), ICCAT's scientific branch. Additionally, NMFS is interested in learning from stakeholders about preferred management objectives. NMFS will provide reasonable opportunity for public input and will announce the timing and format for such input at the beginning of the conference call.

SUPPLEMENTARY INFORMATION:

Title: Rules Relating to Review of National Futures Association Decisions in Disciplinary, Membership Denial, Registration, and Member Responsibility Actions (OMB Control No. 3038-0043). This is a request for extension of a currently approved information collection.

Abstract: 17 CFR part 171 rules require a registered futures association to provide fair and orderly procedures for membership and disciplinary actions. The Commission’s review of decisions of registered futures associations in disciplinary, membership denial, registration, and member responsibility actions is governed by Section 17(h)(2) of the Commodity Exchange Act, 7 U.S.C. 21(h)(2). The rules establish procedures and standards for Commission review of such actions, and the reporting requirements included in the procedural rules are either directly required by Section 17 of the Act or are necessary to the type of appellate review role Congress intended the Commission to undertake when it adopted that provision.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for the Commission’s regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981). The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on November 14, 2018 (83 FR 56827). The Commission received no relevant comments.

Burden Statement: The respondent burden for this collection is estimated to average 1 hour per response. This estimate includes the time needed to transmit decisions of disciplinary, membership denial, registration, and member responsibility actions to the Commission for review. The total estimated annual burden of 3 hours is determined by the following:
