SUPPLEMENTARY INFORMATION:

Title: IRS Taxpayer Burden Surveys.

OMB Number: 1545–2212.

Regulatory Number: N/A.

Abstract: Each year, individual taxpayers in the United States submit more than 140 million tax returns to the Internal Revenue Service (IRS). The IRS uses the information in these returns, recorded on roughly one hundred distinct forms and supporting schedules, to administer a tax system whose rules span thousands of pages. Managing such a complex and broad-based tax system is costly but represents only a fraction of the total burden of the tax system. Equally, if not more burdensome, is the time and out-of-pocket expenses that taxpayers spend in order to comply with tax laws and regulations.

Changes in tax regulations, tax administration, tax preparation methods, and taxpayer behavior continue to alter the amount and distribution of taxpayer burden. Data from updated surveys will better reflect the current tax rules and regulations, the increased usage of tax preparation software, increased efficiency of such

software, changes in tax preparation regulations, the increased use of electronic filing, the behavioral response of taxpayers to the tax system, the changing use of services, both IRS and external, and related information collection needs.

Current Actions: The IRS will be revising and replacing various surveys. The survey scope is expanded to include burden for surveys associated with all taxpayer segments. This effort represents a continuation of the IRS’s strategy to gather taxpayer burden data for all types of tax returns and information reporting documents in order to support Wage and Investment’s OMB Improvement Strategy to transition burden estimates for all taxpayers to the preferred RAAS burden estimation methodology. These surveys will allow RAAS to update and validate the IRS Taxpayer Burden Model which will be used to provide estimates for consolidated taxpayer segments, like what is currently done for OMB numbers 1545–0074, 1545–0123, and 1545–0047. This form is being submitted for revision purposes.
