

State's laws to branches of out-of-State banks. Section 27 of the FDI Act was enacted to provide State banks with interest rate authority similar to that provided to national banks under the National Bank Act, 12 U.S.C. 85. The regulations in this part clarify that State-chartered banks and insured branches of foreign banks have regulatory authority in these areas parallel to the authority of national banks under regulations issued by the Office of the Comptroller of the Currency, and address other issues the FDIC considers appropriate to implement these statutes.

(c) *Scope.* The regulations in this part apply to State-chartered banks and insured branches of foreign banks.

§ 331.2 Definitions.

For purposes of this part—

Home state means, with respect to a State bank, the State by which the bank is chartered.

Host state means a State, other than the home State of a State bank, in which the State bank maintains a branch.

Insured branch has the same meaning as that term in section 3 of the Federal Deposit Insurance Act, 12 U.S.C. 1813.

Interest means any payment compensating a creditor or prospective creditor for an extension of credit, making available a line of credit, or any default or breach by a borrower of a condition upon which credit was extended. Interest includes, among other things, the following fees connected with credit extension or availability: Numerical periodic rates; late fees; creditor-imposed not sufficient funds (NSF) fees charged when a borrower tenders payment on a debt with a check drawn on insufficient funds; overlit fees; annual fees; cash advance fees; and membership fees. It does not ordinarily include appraisal fees, premiums and commissions attributable to insurance guaranteeing repayment of any extension of credit, finders' fees, fees for document preparation or notarization, or fees incurred to obtain credit reports.

Out-of-state state bank means, with respect to any State, a State bank whose home State is another State.

Rate on ninety-day commercial paper means the rate quoted by the Federal Reserve Board of Governors for ninety-day A2/P2 nonfinancial commercial paper.

State bank has the same meaning as that term in section 3 of the Federal Deposit Insurance Act, 12 U.S.C. 1813.

§ 331.3 Application of host state law.

The laws of a host State shall apply to any branch in the host State of an out-of-State State bank to the same extent as

such State laws apply to a branch in the host State of an out-of-State national bank. To the extent host State law is inapplicable to a branch of an out-of-State State bank in such host State pursuant to the preceding sentence, home State law shall apply to such branch.

§ 331.4 Interest rate authority.

(a) *Interest rates.* In order to prevent discrimination against State-chartered depository institutions, including insured savings banks, or insured branches of foreign banks, if the applicable rate prescribed in this section exceeds the rate such State bank or insured branch of a foreign bank would be permitted to charge in the absence of this paragraph, such State bank or insured branch of a foreign bank may, notwithstanding any State constitution or statute which is preempted by section 27 of the Federal Deposit Insurance Act, 12 U.S.C. 1831d, take, receive, reserve, and charge on any loan or discount made, or upon any note, bill of exchange, or other evidence of debt, interest at a rate of not more than 1 percent in excess of the rate on ninety-day commercial paper or at the rate allowed by the laws of the State, territory, or district where the bank is located, whichever may be greater.

(b) *Classes of institutions and loans.* A State bank or insured branch of a foreign bank located in a State may charge interest at the maximum rate permitted to any State-chartered or licensed lending institution by the law of that State. If State law permits different interest charges on specified classes of loans, a State bank or insured branch of a foreign bank making such loans is subject only to the provisions of State law relating to that class of loans that are material to the determination of the permitted interest. For example, a State bank may lawfully charge the highest rate permitted to be charged by a State-licensed small loan company, without being so licensed, but subject to State law limitations on the size of loans made by small loan companies.

(c) *Effect on state law definitions of interest.* The definition of the term *interest* in this part does not change how interest is defined by the individual States or how the State definition of interest is used solely for purposes of State law. For example, if late fees are not *interest* under the State law of the State where a State bank is located but State law permits its most favored lender to charge late fees, then a State bank located in that State may charge late fees to its intrastate customers. The State bank also may charge late fees to its interstate customers because the fees

are interest under the Federal definition of interest and an allowable charge under the State law of the State where the bank is located. However, the late fees would not be treated as interest for purposes of evaluating compliance with State usury limitations because State law excludes late fees when calculating the maximum interest that lending institutions may charge under those limitations.

(d) *Corporate borrowers.* A State bank or insured branch of a foreign bank located in a State whose State law denies the defense of usury to a corporate borrower may charge a corporate borrower any rate of interest agreed upon by the corporate borrower.

(e) *Determination of interest permissible under section 27.* Whether interest on a loan is permissible under section 27 of the Federal Deposit Insurance Act is determined as of the date the loan was made. The permissibility under section 27 of the Federal Deposit Insurance Act of interest on a loan shall not be affected by any subsequent events, including a change in State law, a change in the relevant commercial paper rate after the loan was made, or the sale, assignment, or other transfer of the loan.

Federal Deposit Insurance Corporation.

By order of the Board of Directors.

Dated at Washington, DC, on November 19, 2019.

Annamarie H. Boyd,

Assistant Executive Secretary.

BILLING CODE 6714-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2019-0662; FRL-10002-66-Region 7]

Air Plan Approval; Missouri; Restriction of Emissions From Batch-Type Charcoal Kilns

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Missouri State Implementation Plan (SIP) received on March 7, 2019. The submission revises a Missouri regulation that establishes emission limits for batch-type charcoal kilns based on operational parameters to reduce emissions of particulate matter (PM₁₀), volatile organic compounds (VOCs) and carbon monoxide (CO).

Specifically, the revisions to the rule add definitions specific to the rule, update references to test methods, remove the unnecessary use of restrictive words, remove an obsolete requirement which applied only during the phase-in period of the rule that ended December 31, 2005, clarify a provision for an alternative operating temperature, and make other minor edits. These revisions are administrative in nature and do not impact the stringency of the SIP or air quality. Approval of these revisions will ensure consistency between state and federally-approved rules.

DATES: Comments must be received on or before January 6, 2020.

ADDRESSES: You may send comments, identified by Docket ID No. EPA-R07-OAR-2019-0662 to <https://www.regulations.gov>. Follow the online instructions for submitting comments.

Instructions: All submissions received must include the Docket ID No. for this rulemaking. Comments received will be posted without change to <https://www.regulations.gov/>, including any personal information provided. For detailed instructions on sending comments and additional information on the rulemaking process, see the “Written Comments” heading of the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Tracey Casburn, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number (913) 551-7016; email address casburn.tracey@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” refer to the EPA.

I. Written Comments

Submit your comments, identified by Docket ID No. EPA-R07-OAR-2019-0662, at <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be

accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. What is being addressed in this document?

The state revised title 10, division 10 of the code of state regulations, 10 CSR 10-6.330 “Restriction of Emissions from Batch-Type Charcoal Kilns”, which establishes emission limits for batch-type charcoal kilns based on operational parameters to reduce emissions of PM₁₀, VOCs and CO. 10 CSR 10-6.330 is SIP approved in the Code of Federal Regulations at 40 CFR 52.1320(c). The State submitted its revisions to 10 CSR 10-6.330 to the EPA as a SIP revision on March 7, 2019. In this action, the EPA is proposing to approve revisions to the Missouri SIP received on March 7, 2019.

The revisions are administrative in nature and do not impact air quality. The EPA’s analysis of the revisions can be found in the technical support document (TSD) included in this docket.

III. Have the requirements for approval of a SIP revision been met?

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The state provided public notice of the revisions from August 1, 2018, to October 4, 2018, and held a public hearing on September 27, 2018. The state received and addressed four comments. As explained in more detail in the TSD which is part of this docket, the SIP revision submission meets the substantive requirements of the CAA, including section 110 and implementing regulations.

IV. What action is EPA taking?

The EPA is proposing to amend the Missouri SIP by approving the State’s request to revise 10 CSR 10-6.330, “Restriction of Emissions From Batch-Type Charcoal Kilns.” Approval of these revisions will ensure consistency between state and federally-

approved rules. The EPA has determined that these changes will not adversely impact air quality.

The EPA is processing this as a proposed action because we are soliciting comments on the action. Final rulemaking will occur after consideration of any comments.

V. Incorporation by Reference

In this document, the EPA is proposing to include regulatory text in an EPA final rule that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the Missouri State Implementation Plan and Supplemental modeling analyses described in the proposed amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

VI. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, if they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Particulate matter, Volatile organic compounds.

Dated: December 2, 2019.

James Gulliford,
Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA proposes to amend 40 CFR part 52 as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart AA—Missouri

- 2. In § 52.1320, the table in paragraph (c) is amended by revising the entry “10–6.330” to read as follows:

§ 52.1320 Identification of plan.

Significant New Use Rules on Certain Chemical Substances (19–5.F)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for

certain chemical substances that were the subject of premanufacture notices (PMNs). They are either the subject of Orders issued by EPA under TSCA or have received a “not likely to present an unreasonable risk” determination pursuant to TSCA. This action would require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA’s evaluation of the use, under the conditions of use for that chemical substance, within the applicable review period. Persons may not commence manufacture or processing for the significant new use until EPA has conducted a review of the notice, made an appropriate determination on the notice, and has

taken such actions as are required by that determination.

DATES: Comments must be received on or before January 6, 2020.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2019–0530, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001.

- *Hand Delivery:* To make special arrangements for hand delivery or
