

DC 20585-0121 or by email to Chris.Early@ee.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) *OMB No.* 1910-5184; (2) *Information Collection Request Title:* Programs for Improving Energy Efficiency in Buildings; (3) *Type of Request:* {Renewal} (4) *Purpose:* The proposed collection will enable DOE to better understand and improve building energy load management programs including the following four voluntary programs aimed at reducing energy costs and improving occupant comfort in buildings: The Home Performance with ENERGY STAR Program, the Home Energy Score Program, the Better Buildings Residential Network, and the Zero Energy Ready Home Program. DOE encourages and assists the people and organizations that voluntarily participate in these energy efficiency programs to build or renovate buildings for the purposes of improved efficiency, reliability, and affordability. The partners who voluntarily participate in the programs include: Home builders, building trades and building-related associations, home design professionals, home energy raters and auditors, home inspectors, building consultants, manufacturers of building products, retailers, utility companies, financial institutions, non-profit organizations, educational institutions, energy program administrators and implementers, Home Performance with ENERGY STAR sponsors, state or local government energy offices or agencies, and other organizations that believe peer sharing will help them improve their effectiveness in encouraging effective energy upgrades. DOE proposes to continue to collect information such as names and addresses of voluntary program participants and organizations; estimates of how many homes these program implementers can get to participate in the programs, and information about building stock (no building owner or occupant information is collected) and load management strategies. The collected information helps DOE understand the participating partners' activities and their progress toward achieving scheduled milestones. This, in turn, enables DOE to respond to partners' needs and assist them in improving their operations to lower energy consumption and improve affordability. DOE published a notice and request for comments related to this current request for OMB clearance to collect information on August 16, 2019 (84 FR 41987) and received no comments; (5) *Annual Estimated Number of Respondents:* 962; (6)

Annual Estimated Number of Total Responses: 92,584; (7) *Annual Estimated Number of Burden Hours:* 14,383; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* zero dollars.

Statutory Authority: 42 U.S.C. 16191.

Signed in Washington, DC on December 4, 2019.

Alexander N. Fitzsimmons,

Deputy Assistant Secretary For Energy Efficiency, Energy Efficiency and Renewable Energy.

[Docket No. ER20-517-000]

Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization; Crooked Run Solar, LLC

This is a supplemental notice in the above-referenced proceeding of Crooked Run Solar, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is December 26, 2019.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies

of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: December 5, 2019.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Docket Number: PR20-14-000.

Applicants: Louisville Gas and Electric Company.

Description: Tariff filing per 284.123(b),(e)/: Revised SOC DDC and LAUFG to be effective 11/1/2019.

Filed Date: 12/2/19.

Accession Number: 201912025007.

Comments/Protests Due: 5 p.m. ET 12/23/19.

Docket Numbers: RP20-314-000.

Applicants: Young Gas Storage Company, Ltd.

Description: § 4(d) Rate Filing: ATC Rate Adjustment (2019-2020) to be effective 12/1/2019.

Filed Date: 12/4/19.

Accession Number: 20191204-5149.

Comments Due: 5 p.m. ET 12/16/19.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified date(s). Protests may be considered, but intervention is

necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: December 5, 2019.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20-8-000]

Notice of Intent To Prepare an Environmental Assessment for the Proposed ANR Pipeline Company Grand Chenier Xpress Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Grand Chenier Xpress Project involving construction and operation of facilities by ANR Pipeline Company (ANR) in Acadia, Jefferson Davies, and Cameron Parishes, Louisiana. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies about issues regarding the project. The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires the Commission to discover concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of issues to address in the EA. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in

Washington, DC, on or before 5:00 p.m. Eastern Time on January 6, 2020.

You can make a difference by submitting your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Commission staff will consider all filed comments during the preparation of the EA.

If you sent comments on this project to the Commission before the opening of this docket on October 28, 2019, you will need to file those comments in Docket No. CP20-8-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable easement agreement. You are not required to enter into an agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if you and the company do not reach an easement agreement, the pipeline company could initiate condemnation proceedings in court. In such instances, compensation would be determined by a judge in accordance with state law.

ANR provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC website (www.ferc.gov) at <https://www.ferc.gov/resources/guides/gas/gas.pdf>.

Public Participation

The Commission offers a free service called eSubscription which makes it easy to stay informed of all issuances and submittals regarding the dockets/projects to which you subscribe. These instant email notifications are the fastest way to receive notification and provide a link to the document files which can

reduce the amount of time you spend researching proceedings. To sign up go to www.ferc.gov/docs-filing/esubscription.asp.

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the *eComment* feature, which is located on the Commission's website (www.ferc.gov) under the link to *Documents and Filings*. Using *eComment* is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the *eFiling* feature, which is also on the Commission's website (www.ferc.gov) under the link to *Documents and Filings*. With *eFiling*, you can provide comments in a variety of formats by attaching them as a file with your submission. New *eFiling* users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; a comment on a particular project is considered a "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address. Be sure to reference the project docket number (CP20-8-000) with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426.

Summary of the Proposed Project

ANR's project consist of: (i) Modifications to its existing Eunice and Grand Chenier Compressor Stations, (ii) construction and operation of a new greenfield compressor station (Mermentau Compressor Station), (iii) modifications to ANR's Mermentau River GCX Meter Station,¹ and (iv) installation of various appurtenant and auxiliary facilities. The project would provide an additional 400 million cubic feet per day of incremental natural gas capacity from ANR's Southeast Head Station² to the Mermentau River GCX Meter Station.

The Grand Chenier Xpress Project would consist of the following facilities:

¹ ANR states that the Mermentau River GCX Meter Station will be installed pursuant to the automatic provisions of its blanket certificate.

² ANR's Head Station is a pooling point where natural gas is aggregated from many receipt points.
