[Docket No. CP19-118-000]

Notice of Revised Schedule for Environmental Review of the Trans-Foreland Pipeline Company, LLC Kenai LNG Cool Down Project

This notice identifies the Federal Energy Regulatory Commission staff's revised schedule for the completion of the environmental assessment (EA) for Trans-Foreland Pipeline Company, LLC's (Trans-Foreland) Kenai LNG Cool Down Project. The first notice of schedule, issued on June 19, 2019, identified December 13, 2019 as the EA issuance date. In its October 2019 response to Commission staff's data requests, Trans-Foreland states that it will not file certain information until January 2020. Further, Commission staff also issued a follow-up data request to Trans-Foreland on December 9, 2019, requiring Trans-Foreland to clarify certain critical and complex information and address data gaps that were not addressed by Trans-Foreland in previous responses to staff data

requests. As a result of Trans-Foreland's representations that this critical data will not be filed until sometime in January and the need for Commission staff and cooperating agencies to review this information, Commission staff has revised the schedule for issuance of the EA. The revised schedule for the EA is based upon Trans-Foreland providing complete responses to outstanding data requests in the timeframes it has identified and as requested in the December 9 data request.

Schedule for Environmental Review

Issuance of the EA April 24, 2020
90-day Federal Authorization Decision
Deadline July 23, 2020

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. [Project No. 1894-209]

Notice of Availability of Environmental Assessment; Dominion Energy South Carolina Inc.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application submitted by Dominion Energy South Carolina Inc. (licensee) to allow Newberry Sand Inc. (NSI), in Newberry and Greene Counties, South Carolina, the use of Parr Shoals Hydroelectric (FERC No. 1894) project lands and waters to conduct hydraulic sand mining. The project is located on the mainstem of the Broad River Newberry and Fairfield Counties, South Carolina.

An Environmental Assessment (EA) has been prepared as part of Commission staff's review of the proposal. In the application, NSI anticipates removing 23,500 tons of sand each year from the project reservoir. The dredge would pump sand to an upland processing area. This EA contains Commission staff's analysis of the probable environmental impacts of the proposed action and concludes that approval of the proposal would not constitute a major federal action significantly affecting the quality of the human environment with implementation of the staff recommendations.

The EA is available for electronic review and reproduction at the Commission's Public Reference Room, located at 888 First Street NE, Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-1894) in the docket number field to access the document.
