SUPPLEMENTARY INFORMATION:

Background

On November 14, 2018, Commerce published the *Preliminary Results*¹ and invited comments from interested parties.² No interested party submitted comments. However, on December 21, 2018, Whirlpool Corporation (Whirlpool) submitted a request to rescind these changed circumstances reviews.³ No other party commented on Whirlpool's rescission request. We have not considered this request because Whirlpool not only submitted it approximately five months after the 90-day withdrawal deadline specified in 19 CFR 351.213(d)(1), but also after the publication of the *Preliminary Results* when Commerce had expended significant resources in conducting these changed circumstances reviews.

Scope of the Orders⁴

The products covered by the *Orders* are all large residential washers and certain subassemblies thereof from Korea and Mexico. The products are currently classifiable under subheadings 8450.20.0040 and 8450.20.0080 of the Harmonized Tariff System of the United

States (HTSUS). Products subject to these orders may also enter under HTSUS subheadings 8450.11.0040, 8450.11.0080, 8450.90.2000, and 8450.90.6000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to this scope is dispositive.⁵

Scope of Changed Circumstances Reviews

Whirlpool requested that Commerce revoke the *Orders*, in part, with respect to FL CIM/Belt washers.⁶ Whirlpool proposed that Commerce amend the scope language as follows: “{A} also excluded from the scope are automatic clothes washing machines that meet all of the following conditions: (1) Have a horizontal rotational axis; (2) are front loading; and (3) have a drive train consisting, *inter alia*, of (a) a controlled induction motor and (b) a belt drive.”⁷

Final Results of Changed Circumstances Reviews

In the *Preliminary Results*, we determined that Whirlpool does not account for at least 85 percent of the production of the domestic like product and, therefore, does not account for “substantially all” of the production of the domestic like product.⁸ Therefore, we preliminarily determined not to revoke the *Orders*, in part, with respect to FL/CIM Belt washers.⁹ As no parties commented on the *Preliminary Results*, we made no changes for the final results of these changed circumstances reviews. Consequently, we continue to determine not to revoke the *Orders*, in part, with respect to FL/CIM Belt washers.

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ If the new deadline falls on a non-business day, in accordance with

Commerce's practice, the deadline will become the next business day. Accordingly, the revised deadline for this final determination is now March 6, 2019.

Scope of the Order⁴

The products covered by the order are wire rod of approximately round cross section, 5.00 mm or more, but less than 19.00 mm, in solid cross-sectional diameter. For a complete description of the scope of the order, see the Issues and Decision Memorandum.

Scope of the Anti-Circumvention Inquiry

The products covered by this inquiry are imports of wire rod with an actual diameter less than 4.75 mm that are produced and/or exported to the United States by Deacero, and otherwise meeting the description of subject merchandise.

Methodology

Commerce conducted this anti-circumvention determination in accordance with section 781(c) of the Tariff Act of 1930, as amended (the Act). For a full description of the methodology underlying our conclusions, see the Issues and Decision Memorandum. A list of topics included in the Issues and Decision Memorandum is included in the Appendix to this notice.

Final Affirmative Determination of Circumvention

As detailed in the Issues and Decision Memorandum, we determine, pursuant to section 781(c) of the Act and 19 CFR 351.225(i), that imports of wire rod with an actual diameter less than 4.75 mm that are produced and/or exported to the United States by Deacero, and otherwise meeting the description of subject merchandise, constitute merchandise "altered in form or appearance in minor respects" that should be considered within the class or kind of merchandise subject to the *Order*.

Continuation of Suspension of Liquidation

As stated above, Commerce has made an affirmative finding of circumvention of the *Order* with respect to imports of wire rod with an actual diameter less than 4.75 mm produced and/or exported to the United States by Deacero. In accordance with 19 CFR 351.225(l)(2), we are directing U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of wire rod with an actual diameter less than 4.75 mm produced and/or exported to the United States by Deacero entered, or withdrawn from warehouse, for consumption on or after February 7, 2018, the date of publication of the initiation of this inquiry, until appropriate liquidation instructions are issued.⁵ In accordance with 19 CFR 351.225(l)(2) Commerce will also instruct CBP to continue to require a cash deposit of estimated duties, at the rate applicable to subject merchandise produced and/or exported

⁵ See *Carbon and Certain Alloy Steel Wire Rod from Mexico: Initiation of Anti-Circumvention Inquiry of Antidumping Duty Order*, 83 FR 5405 (February 7, 2018) (*Initiation Notice*).

Deacero, for each unliquidated entry of wire rod with an actual diameter less than 4.75 mm produced and/or exported by Deacero and entered, or withdrawn from warehouse, for consumption on or after February 7, 2018.
